

He Makes Everything Beautiful In Its Time....

Ecclesiastes 3:11

June 2009

What is a Summer Project?

Praises:

- ♦ We were able to move our boxes right into our new apartment. (We didn't have to place our stuff into storage!) Also, praise God for just over a dozen friends/family to help out on moving day!
- ♦ Praise God for students who have decided to trust Jesus this summer already! (see story to the right)
- ♦ Praise God we were able to find a hotel (in Nebraska) for our drive to Colorado that offers a FREE night stay to missionaries who are traveling!
- ♦ We've made some recent connections with several students at Schenectady County Community College!

Prayer Requests:

- ♦ We will be driving to Colorado for New Staff Training on June 12th and will arrive on June 15th. Please pray for safe travels and health!
- ♦ Please Continue to Pray for the students in the capital region that are already on summer mission's projects (some leave this month!) (Sarah, Hannah, Holly, Justin, Jason, and Phil)
- ♦ Please pray for the Fall outreaches now, that students hearts would be prepared.
- ♦ Please pray for freshman orientation at St. Rose this July and for Natalie as she is our representative and as she heads up this effort!
- ♦ Please pray for us to continue to give God glory by giving our first fruits of our time to Him and then to each other as a couple.
- ♦ Please pray specifically for us to learn lots in Colorado in training and that we would come back refreshed and ready to hit the Campuses!

Campus Crusade for Christ offers more than 150 unique summer projects. Some are 10 weeks long, others just a week. Some go overseas to places of which you have never heard; others are here in the U.S. where you live. Students might be reaching out to college students in the U.S. or internationally, a beach or resort community, an Hispanic/Latino community, an African American community, an Asian American community, High School students, International students, Greeks on campus, Athletes, an Inner City community, the Art community, a Military community...You get the picture... there are many summer projects!

Check out the website <http://www.gosummerproject.com>. No matter the length or ministry focus, our U.S. summer projects offer great training and ministry experience. While on project, students will be with 30-150 other students who also desire to grow in their walk with God, in how to share Jesus with lost people, and to learn some great ministry skills to take back to campus in the fall!

"First time going out sharing on the beaches I was so nervous, but seriously, you're gonna love this story. It was A-mazing !!!"

I recently spoke to a student on summer project and she's already seen a student come to know Jesus, within the first week!

Stacey* was so excited to share with me her story and I was thrilled she wanted to call and tell me! Her enthusiasm and excitement was contagious! Stacey went out with another student (they go out in twos), to share with people on the beach. They ended up talking to two college students who were vacationing with two friends (who did not know Jesus). Immediately Stacey decided that they would go share with their friends! As all four of them were walking over to find these friends, they noticed two other Campus Crusade students already sharing! They decided to huddle and pray for the conversation. Later they learned that while talking with the Campus Crusade Students, one of them made a decision to trust Jesus that day!

Stacey was thrilled that she was included in the blessing by begin available! Please pray for students on summer projects all over the world for opportunities like this one!

Typical day on a U.S. Project (brief outline)

8-9 am: Breakfast and Quiet Time

9-5 pm: At ministry site (ministry site will depend on which project—may be summer job location, a Campus, a rescue mission...)

5-6 pm: Dinner

7-9 pm: Project training/ meeting/ small group activities (depends on the project and night of week)

Note: Organized outreaches happen each week - most likely on weekends (depends on project)
