"Are we going to [meet] again next week? I don't even care about the pizza. I just love the conversation!"

.... said a football player at a Florida high school campus where we have a new Cru movement. It was just several weeks back and it was during one of his first meetings with our staff and students there. One of our Cru staff members named Brittany and some Cru volunteers were on his campus in Central Florida. They had planned a Cru community group during the lunch. It was the first one of its kind that they held on campus. Brittany went into the classroom they had reserved during lunch for the meeting and there were about 15 football players eating lunch in that room. It was their place where they normally ate during lunch. They invited the players to stay and all of them watched a video of a football player giving his testimony. It was providential that it was a video focused specifically on things to which football players could relate. Afterwards they invited them to play a card game with the "Snapshot Cards" (an evangelistic tool for asking questions about faith and starting spiritual conversations) developed this year by our team at Cru Headquarters. One of the football players named Vikram\*\* had come to our previous Cru meetings and picked one of the cards that reflected his life and he shared with two other football players about it. At the end one of the two he shared with said "are we going to do this again next week? I don't even care about the pizza. I just love the conversation!" Brittany said "Yes, we'll meet again next week." Later Brittany learned that **Vikram had made a decision to trust Christ** with his life that day!

"Snapshot Cards" are an evangelism tool set developed by Cru staff featuring our very own firstborn! =)

## Did you Know?

Cru's high school and middle school ministry sent 64 students on global missions this **spring** alone to reach the world on 7 teams, and 27 were ethnic minorities

watch a video featuring Brittany on how to use instagram to start a ministry to students

Please pray for Vikram, the two lacrosse players, and so many other students Brittany and many other volunteers on her team are serving. We are honored to operationally support Brittany, her volunteers, and so many others representing Cru because of our partnership with you!
